EDUCATION

Shri Dharmasthala Manjunatheshwara College of Engineering and Technology. **Dharwad, Karnataka**
B.E in Computer Science *Current*
CGPA**:** 9.88

Himalaya PU College, Ankola **Uttara Kannada, Karnataka**
Percentage**:** 95.66% *May 2020 – April 2022*

Nirmala Hridaya High School, Ankola **Uttara Kannada, Karnataka**
Percentage**:** 96.16% *March 2019 – April 2020*

PROFILE SUMMARY

Targeting **Full stack Developer** roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

WORK EXPERIENCE

InternPe - IT & Training Company [Python Intern]

- Gained hands-on experience in writing clean, efficient, and well-documented Python code across various projects.
- Applied Python libraries such as Pandas, Matplotlib to handle data processing, analysis, and visualization tasks.

CodXo [Web Development Intern]

- Developed web applications with task management, real-time data features, and responsive design.
- Implemented API integrations to enhance functionality and improve user experience.

PROJECTS

1. Product Sentiment and Analysis **June 2024**

Tools: Python, Web Scrapping Tools, Vadar and Robust Sentiment analysis models

Developed a sentiment analysis tool for Intel products using machine learning and natural language processing techniques.

Responsibilities:

- Collected and pre processed data from various sources, ensuring it was clean and ready for analysis.
- Developed machine learning models and applied NLP techniques for accurate sentiment analysis.
- Visualized trends and created reports to communicate insights to stakeholders.

Github: https://github.com/Intel-Unnathi-Intership-Program/Product_Sentiment_Analysis.git

2. Online Movie Booking Project Using C **Feb 2024**

Developed a project which allows users to select movies, choose seats, and book tickets and even cancel selected seats through a command-line interface

Responsibilities:

- Streamlined movie selection and ticket booking via a command-line interface.
- Foundational C programming exercise utilizing file handling and data structures
